Layout tab

If you are using Windows NT® 4.0, Windows® 2000, XP or Windows Vista®, you can access the **Layout** tab by clicking **Printing Preferences...** in the **General** tab of the **Brother MFC-XXXX** (or **DCP-XXXX**) **BR-Script3 Properties** screen. The **Layout** tab enables you to change various layout settings such as **Orientation**, **Print on Both Sides**, **Page Order** and **Pages Per Sheet**.

Paper/Quality tab

If you are using Windows NT® 4.0, Windows® 2000, XP or Windows Vista®, you can access the **Paper/Quality** tab by clicking **Printing Preferences...** in the **General** tab of the **Brother MFC-XXXX** (or **DCP-XXXX**) **BR-Script3 Properties** screen. Choose the **Paper Source**.

For details on configuring your network printer using the Bradmin Light Utility or Web-Based Management (Web Browser), see IP and Subnet Map in the Pan Gina 10. In this case, run Setup.exe in the root directory of the CD-ROM. To change the boot method, use the Bradmin application or Web-based management (Web browser). These are the keys with the Windows logo. f In the default printer list, choose your template to set as standard printer. To install the printer driver, see the User's Guide that we provide with the printer. It is not necessary to manually configure any IP address or network chains inside the printer because the printer will set up automatically.Porn 8 Network Printing from Macintoshâ® 20 4 F Feature next selection. For instructions on how to install from the CD-ROM, use the User's Guide that we provide with the printer. Note Only for Windows®: If you want to change more advanced settings, use the Bradmin Professional utility available as a download at using web-based management (Web browser) for Changing the configurations of the printing server 2 A standard web browser can be used to change the printing server settings using HYPER TEXT TRANSFER PROTOCOL). Then click OK. c Choose to add a local printer. Dynamic Host Configuration Protocol (DHCP) is one of several automated mechanisms for IP address allocation. Configuring your network printer 13 2 Changing the printer server settings 2 using the Bradmin Light utility to change the printing server settings 2 to start the Bradmin Light utility. For example: http: //192.168.1.2/ (if printer_ip_address is the IP address or the name of the printing server) Â º (if the IP address of the for 192.168.1.2.) Notice If you edited the HOSTS file on your computer or are using a Name System, you can also enter the DNS name of the print server. The BRAdmin Light utility is available for WindowsÃ®Â 2000/XP and Windows Vista¢ÃÂ¢Â and Windows ServerÃ®Â 2003, and Mac OSÃ®Â X 10.2.4 or greater computers. These can be installed from the included CD-ROM. Choose Create a new port and choose Standard TCP/IP Port from the pull-down window, then click Next. If you need to configure the IP address, see Chapter 2 first. f Windows Vista Ã®Â and Windows Server Ã®Â 2008 will now contact the printer that you specified. In order to use BOOTP to configure the IP address make sure that BOOTP is installed and running on your host computer (it should appear in the /etc/services file on your host as a real service; type man bootpd or see your system documentation for details). If the box is chosen, click the box to remove the check. Typically this would be Standard TCP/IP Port. button. Windows Â®Â XP SP2/SP3 users: 6 a Click the Start button, Settings, and then Control Panel. The remote PC does not have to be connected to a network.Page 11 23 6 6 Overview 6 This chapter explains how to resolve typical network problems you may encounter when using the Brother network printer. b Press the ¢ÃÂWindows¢ÃÂÂ key plus the ¢ÃÂÂE¢ÃÂÂ key to open My Computer. 6 Make sure you have completed the IP address setting of the Brother print server according to Chapter 2 of this Guide before installing the network print software or printer driver. Page 2 Configuring your network printer 14 2 a Type into your browser. d Choose the port that you wish to use. b For Windows Ã®Â XP and Windows Server Ã®Â 2003: Click Add a printer to start the Add Printer Wizard. b

Right click on the printer driver you wish to configure, and then choose Properties. Before using the Simple Network Configuration capabilities, you must install the printer driver. d Click the + button to add your machine.
